Uses and Disclosures that Require your Written Authorization beyond the General Consent

The covered entity may use or disclose PHI for purposes outside of treatment, payment, and healthcare operations when appropriate authorization is obtained. An authorization is written permission above and beyond the general consent that permits only specific disclosures. In those instances when we ask for information for purposes outside of treatment, payment and healthcare operations, we will obtain an authorization from you before releasing this information (e.g., to a family member, attorney, etc.)

We will also need to obtain a separate and specific authorization before releasing your psychotherapy notes. Psychotherapy notes are notes we have made about our conversation during a private, group, joint, or family counseling session, which we have kept separate from the rest of your medical record. These notes are given a greater degree of protection than PHI. The following information is not considered psychotherapy notes and is included as part of your medical record or PHI: 1) medication prescription and monitoring, 2) therapy session start and stop times, 3) the modalities and frequency of treatment furnished, 4) results of clinical tests, and 5) any summary of the following items: diagnosis, functional status, the treatment plan, symptoms, prognosis, and progress to date.

You may revoke all such authorizations (of PHI or psychotherapy notes) at any time, provided each revocation is in writing. You may not revoke an authorization to the extent that 1) I have relied on the authorization; or 2) if the authorization was obtained as a condition of obtaining insurance coverage, and the law provides the ensure the right to contest the claim under the policy.

Uses and Disclosures that DO NOT Require your Written Consent or Authorization

We may use or disclose PHI without your consent or authorization in the following circumstances:

- **Serious Threat to Health or Safety:** If we are engaged in professional duties and you communicate to us a specific and immediate threat to cause serious bodily injury or death, to an identified or to an identifiable person, and I believe you have the intent and ability to carry out that threat immediately or imminently I must take steps to protect third parties. These precautions may include 1) warning the potential victim(s), or the parent or guardian of the potential victim(s), if under 18; or 2) notifying a law enforcement officer.
- **Child Abuse:** If we have reason to suspect that a child is abused or neglected, we are required by law to report the matter immediately to the Virginia Department of Social Services.
- **Adult and Domestic Abuse:** If we have a reason to suspect that an adult is abused, neglected, or exploited, we are required by law to immediately make a report and provide relevant information to the Virginia Department of Welfare or Social Services.
- **Judicial or Administrative Proceedings:** If you are involved in a court proceeding and a request is made for information about your diagnosis and treatment in the records there, such information is privileged under state law, and we will not release information without the written authorization of you or your legal representative, or a subpoena (of which you have been served, along with the proper notice required by state law). However, if you move to quash (block) the subpoena, we are required to place said records in a sealed envelope and provide them to the clerk of court of the appropriate jurisdiction so that the court can determine whether the records should be released. The privilege does not apply when you are being evaluated for a third party or where the evaluation is court ordered. You will be informed in advance if this is the case.
- **Worker's Compensation:** If you file a worker's compensation claim, we are required by law, upon request, to submit your relevant mental health information to you, your employer, the insurer, or a verified rehabilitation provider.
- **Health Oversight:** The Virginia Board of Counseling has the power, when necessary, to subpoena relevant records should we become the focus of an inquiry.
